P/S
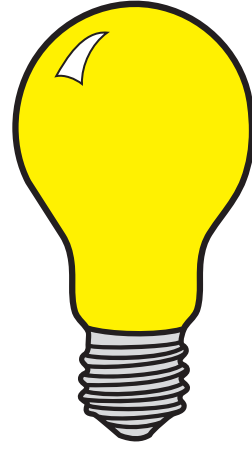

## Problem Solving

- I have a strategy that works to solve the problem.

- Do I have the correct answer?

Example:

R/P

Reasoning & Proof

- My math thinking and my answer(s) are on my paper.

- Does my answer(s) support my thinking?

Example:

Com

Communication

- My work has at least 2 math words (symbols) to support my strategy.

- Do my math words and symbols explain my thinking?

Example:

Con | Connections

Connections

- I notice something about my solution that connects to other math.

- Do I say or show what I notice about my solution?

··

Example:

R

Getting to School

Representation

- My representation works to support my strategy.

- Are my labels and data correct?
